FY 1990/FY 1991 BIENNIAL BUDGET ESTIMATES
OPERATION AND MAINTENANCE, ARNG

INTRODUCTORY STATEMENT

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

The Operation and Maintenance, Army National Guard (OARNG) FY 1990/91 President's budget request has been carefully developed to provide units with trained and proficient personnel qualified to be an integral part of defense for the United States. Funding is included for the following budget activities: Budget Activity one is Mission Forces consisting of subactivities in: Training Operations, Logistics Support, Base Operations, Recruiting Support, Medical Support, Productivity Capital Investment Program and Special Operations Forces. Budget Activity two consists of Depot Maintenance and Budget Activity three is Headquarters and Command Support.

The FY 1990 budget request of \$1,873.2M supports a force of 458,020 ARNG military strength, 28,863 civilian strength and approximately 3,458 company-size units/detachments. The FY 1991 budget request of \$1,904.5M supports a force of 458,771 ARNG military personnel, 29,053 civilian strength and approximately 3,500 company-size units/detachments. Army National Guard (ARNG) expects to attain readiness levels in FY 90 of 89% and FY 91 of 88% (fully mission capable). Air operating tempo is projected to be 8.9 hours per crew per month in both FY90 and FY 91 and ground operating tempo will be 259 miles in FY90 and 288 miles in FY91. Due to ever increasing readiness levels, greater demands on mission requirements, and modernization efforts expanding the ARNG vehicle and aircraft fleets, increased training and support is essential to sustain mission capability in FY 90 and FY 91. The aviation program is acquiring both new and displaced attack helicopters and assessing additional combat aviator crews to comply with force structure changes.

Improvements of Army National Guard units are contingent upon the ability of these units to provide realistic training environments and support the overall mission of the ARNG with continued modernization efforts. Recent reductions in Active Component end strength emphasize the critical role of ARNG units, particularly in the areas of nondivisional combat and tactical support. The FY 90/91 request provides funding for the increased interoperability with the active component generating increased costs in travel, individual and unit training, unit activations and conversions. This budget stresses outfitting and equipping early deploying units along with continued modernization efforts. This budget will support the overall mission of the ARNG and provides special attention to nondivisional combat support and combat support units that need additional or new equipment.

NOTE: Budget Activities are restructured beginning in FY 1990 making Reserve and Active Budget Activities comparable for all services. Mission Forces combines Training Operations, Logistical Support (less Depot Maintenance), Recruiting Support (formerly under Headquarters & Command Support), and Medical Support. The nine activity groups comprising the budget remain structurally the same and are reported at the same level of detail as in previous budget requests.

PROGRAM BUDGET DECISION

PROGRAM BUDGET DECISION: OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD (065)

1. Description of Operations Financed:

Operation and Maintenance, Army National Guard finances all costs of operating and maintaining the Army National Guard (ARNG), except military pay. The FY 1990 budget request provides for the training and operational support of an end strength of 458,020 ARNG personnel in the Selected Reserve. The FY 1991 request supports an end strength of 458,771. This end strength provides the following total Army contributions: 36 percent of the combat divisions; 69 percent of the separate brigades; 40 percent of the armored cavalry regiments; approximately 46 percent of armor battalions; 51 percent of field artillery battalions; 50 percent of the infantry battalions; and 25 percent of the special forces groups. In addition to direct support of the ARNG forces, this appropriation provides for ARNG administration, communications, supply activity, transportation, and depot maintenance. Included in the FY 90 budget estimate of \$1,873.2M is \$887.6M or 48 percent for pay and benefits to support a civilian personnel end strength of 28,863. \$985.6M or 52 percent supports the operation/maintenance/repair of equipment and over 2,358 separate facilities/activities. Included in the FY 91 budget estimate of \$1,904.5M is \$922.3M or 48 percent to support pay and benefits of a civilian end strength of 29,053 and \$982.2M or 52 percent for the operation/maintenance/repair of equipment and over 2,386 separate facilities/activities.

Detail by Activity Group

ACTIVITY GROUP: TRAINING OPERATIONS

I. Narrative Description:

The Training Operations Activity provides for the training support of Army National Guard (ARNG) units in accordance with readiness objectives and the overall mission of furnishing and maintaining combat ready ARNG forces at the time of mobilization. Included are the pay of full-time training technicians in the Mission Forces Budget Activity assigned to ARNG units, training aids, Inactive Duty Training (IDT), Inactive Duty Training Travel, Technician School travel and tuition. This funding supports the needs of approximately 3,458 company-size units/detachments located throughout the 50 States, Puerto Rico, the Virgin Islands, the District of Columbia, and Guam.

II. Description of Operations Financed:

Training Technicians:

Pay and compensation for unit headquarters technicians, Administrative Supply Technicians (AST), and aviation operation and training technicians. These technician requirements are determined by Staffing Guides applicable to the units supported.

Inactive Duty Training Travel and Transportation:

Travel and transportation of personnel to and from inactive duty training sites by commercial conveyances and/or privately owned vehicles, command inspection, staff travel and per diem. Commercial transportation is more economical than the use of organic combat vehicles.

School Program Training Material:

Cost of extension course material and printing of State Officer Candidate School materials.

Training Support:

Training aids and services; targets, target materials, and target systems; supplies and services; engineer construction materials; rental of bivouac sites; marksmanship and biathlon programs; audiovisual services for safety program; and safety and marksmanship trophies and awards.

Training School Travel and Tuition:

Cost of per diem, transportation and tuition for technicians attending schools/training courses. Payment is made under provisions of the Joint Travel Regulations (JTR).

Environmental Technical Services:

Cost to procure technical services required to implement environmental compliance of the ARNG with Federal laws and regulations; costs of studies, investigations, and laboratory services involving environmental pollution prevention, control and abatement requirements and non-pollution environmental protection requirements.

OPERATION AND MAINTENANCE ARMY NATIONAL GUARD

Detail by Activity Group

ACTIVITY GROUP: LOGISTICAL SUPPORT

I. Narrative Description:

Provides logistical support for Army National Guard (ARNG) forces in accordance with readiness objectives and the overall mission of supporting the Army with combat ready ARNG units upon mobilization. The FY 1990/91 Budget request supports the additional ARNG units assigned missions requiring rapid mobilization and virtually immediate deployment in FY 90/91. This budget also finances a surface OPTEMPO of 259 miles in FY 90 and 288 miles in FY 91 and air OPTEMPO of 8.9 hours per crew per month in both FY 90 and FY 91.

II. Description of Operations Financed:

Logistical Support Technicians:

Pay and compensation for organizational and field maintenance support technicians; aviation maintenance technicians; United States Property and Fiscal Officer (USPFO) technicians; organizational supply technicians; technicians engaged in training site operations and management; and technicians assigned to other logistics support activities.

Technician Travel:

Travel, per diem, and Permanent Change of Station (PCS) costs for all technicians, travel incurred in the performance of official duties (except attendance at training, which is included in the Training Operations Activity).

Organizational Clothing and Equipment:

Clothing and equipment, end items, tool sets, and accessories authorized by applicable Tables of Organization and Equipment (TOE), Tables of Distribution and Allowances (TDA), Consolidated Tables of Allowances (CTDA), and as authorized by the National Guard Bureau.

Repair Parts, Materials, and Contractual Services:

Supports total ARNG inventory of surface equipment and aircraft which need repair parts and materials used in repair.

Petroleum, Oil, and Lubricants (POL):

POL used for surface equipment and aircraft within the ARNG.

ACTIVITY GROUP: LOGISTICAL SUPPORT

II. Description of Operations Financed:

Transportation Services:

Intra- and interstate transportation of equipment to and from annual training sites; return of equipment to supply sources; shipments of equipment to Army installations for repair and return; second and third destination transportation of ammunition, materials, and equipment; and cargo handling and freight charges.

Communications:

Commercial communications for annual training, inactive duty training, administration, field support activities, and telegraph charges.

Other Supplies, Equipment and Services:

Laundry services for annual training and inactive duty training, cleaning, repairs, and alteration of organizational clothing and equipment; packing and crating; office expenses; office equipment rentals; court reporter costs; burial expenses; and administrative supplies and services.

Activity Group: RECRUITING AND RETENTION

I. Narrative Description:

This activity group funds a recruiting and retention force of 3,762 Full-Time Military personnel (AGRs) in FY 90 and 3,762 in FY 91, that includes 50 dedicated recruiters and 47 civilians to support recruiting for the Army Medical Department (AMEDD) recruiting program and a retention force of 359 in FY 90 and 359 in FY 91. There are an additional 32 civilians in support of and encourage continued participation in Army National Guard (ARNG) troop units.

II. Description of Operations Financed:

Recruiting Advertising: The ARNG advertising objective is to support the full-time recruiting/retention force with an intensive magazine advertising campaign, public service materials for the electronic media, and to maintain target audience awareness of ARNG "offer". Primary targets of campaigns will be the 17 to 21 year old Non-Prior Service (NPS) high school graduates and college level personnel, prior service females, and minority markets. Requirement exists for professional development with technical subjects such as computer training to enable recruiters to become qualified in operating sophisticated equipment. The objective in the retention area is to support the full-time retention force with an intensive internal advertising campaign informing Guardsmen of program and awareness concepts that will assist in securing quality reenlistments.

Recruiting/Retention Support provides for the transportation, meals and lodging of applicants to and from Military Enlistment Processing Stations (MEPS); commercial communications costs, automobile rental costs and other bonafide expenses in direct support of recruiting and retention; personnel compensation and benefits payable to technician personnel who support recruiting and retention activities.

Detail by Activity Group

ACTIVITY GROUP: DEPOT MAINTENANCE

I. Narrative Description:

Provides for procurement of repair parts and materials required for the maintenance and repair of ARNG equipment including aircraft; procurement of contractual maintenance, and the cost of depot level maintenance performed in the Army depots on a repair and return to user basis. Includes initial and replacement issue of items procured from Stock Funds or Local purchase as delegated by proper supply source. The depot level maintenance is performed by the Army Materiel Command Depot System in accordance with Army standardized specifications published in equipment technical regulations. The ARNG depot maintenance program provides essential support to maintain all ARNG equipment in a mobilization ready and deployable status to meet programmed readiness and to repair and sustain equipment critical to ARNG training and materiel readiness goals for which replacement items cannot be expected from the Army supply system in the immediate future.

II. Description of Operations Financed:

Depot Maintenance:

Depot-level maintenance support of total Army National Guard (ARNG) inventory of surface equipment and aircraft.
